

Dear Year 2 Parents,

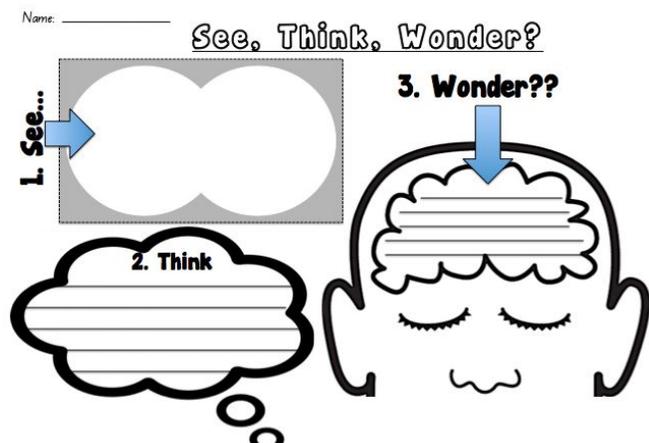

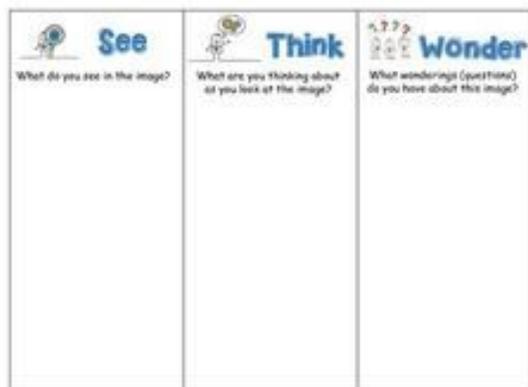

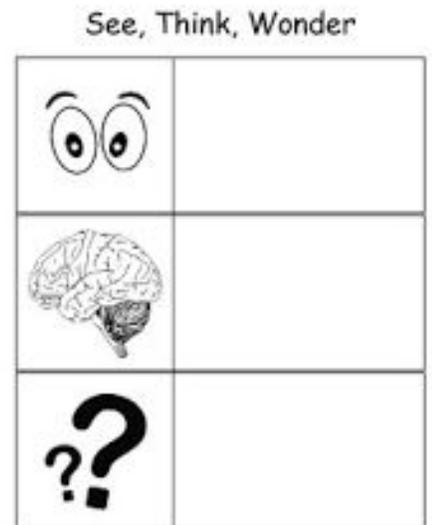

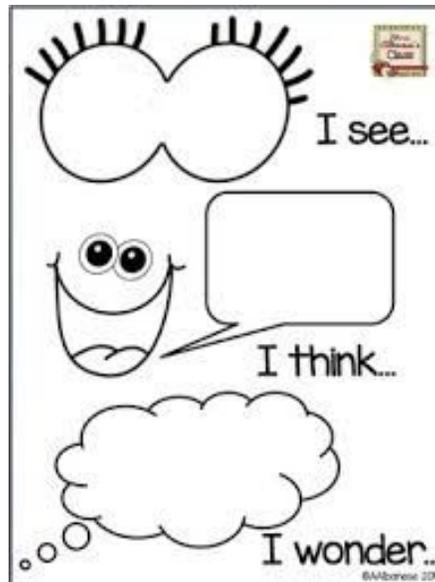

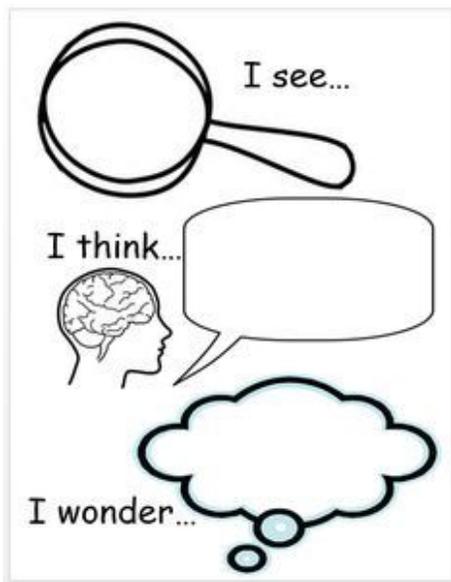

We have prepared some suggested home learning activities for your children. Once we return to school, students who submit any of their home learning will have the opportunity to share it with others.

Please have fun with the engagements listed below:

**Unit Work:**

Find a picture of a real space somewhere in the world. You may need to research in books, magazines, online or maybe it is a space you already have an image of. Put your ideas in a see, think, wonder organiser of your choice. This is also you working your inner voice!

Here are some ideas:

## Reading

Use your visualising to draw what the Green Giant looks like. You can include your own details as well, to make him even more interesting.

# My Mental Image

## Green Giant

By Jack Prelutsky

There lived a green giant whose name was Sam.  
His hair was the color of strawberry jam.  
He had one brown and one blue eye.  
And a beard the color of pumpkin pie.  
His coat and pants were oh so bright,  
Like a peppermint stick all red and white.  
His socks were as yellow as lemon pop.  
His shoes were as brown as a chocolate drop.  
His hat was the color of gingerbread,  
with a tall, tall feather of raspberry red.

## Writing

Choose one of these aliens and use some great adjectives to describe it. Could I imagine the alien from your words? If you want to choose more go ahead! Maybe even use them as characters in a story?

## Art

Create a still life by arranging some items on a table.

Use pencils, pen, paint, charcoal or whatever you want to draw what you can see.

Look carefully at the way the items are in front or behind each other.

## Maths

Using your new ruler skills can you measure different items in your home and record the information any way you like. You could draw and label, create a table or just write the word with the measurement.

### **Remember:**

**Start from zero**

**Use the centimetres**

**Write cm after the number when recording the information so we know what the numbers mean.**

Challenge: if you have a tape measure or a long metal ruler maybe you could measure some very long or tall things!

## **PE**

Stretch with some yoga activities from Cosmic Kids (Link [here](#)). If possible, go outside or to your indoor playroom to run, jump, scooter, etc. Get your body moving!

## **Music**

Practice the Learner Profile song with your child at home. Students will sing this song during the Year 2 Assembly on Friday 22nd November.

## **Online Learning Links and Apps (we encourage setting limits for how long children spend on technology):**

1. Download the free app “Toontastic” and create a story.
2. Download the free coding app “Scratch Jr.” Can you figure out how the app functions?
3. Visit the KJS library website and check out some of the suggested online story sites.
4. Visit our Year 2 Splat Page and click the tab for the Math/Literacy connections. You will find a collection of online skill-building games that have been vetted by the teachers.
