Success for Every Child

Date: 6 Sep 2022

Dear KJS Families,

The EDB has recently issued an updated COVID vaccination for extra-curricular activities directive pertaining to 5-11 year-old students. Please see the details below if your child is currently enrolled in a KJS after-school activity or if you are interested in enrolling in the future.

- From October 1st, 2022, 5-11 year-old students enrolled in extra-curricular activities must have received either three doses of the Sinovac vaccine or two doses of the BioNTech vaccine.
- Please note that your child may still participate in extra-curricular activities if they have received two Sinovac doses on or just before October 1st, 2022 and are still in the 10-day required waiting interval before a third dose is allowed.
- If your child has recovered from COVID-19 before or after being vaccinated then they will require two Sinovac doses or one BioNTech dose from October 1st, 2022.

I understand that it is challenging to navigate the ever-changing COVID requirements, and I appreciate your cooperation in this matter. If needed, please take the necessary action stated in this message and inform us directly of the change in your child's vaccination status.

Kind regards,

Dr. Jamie Schmitz

Acting Principal

Kowloon Junior School
