Success for Every Child

Date: 09 Dec 2022

Dear KJS families,

This year we have students who have a severe nut allergy. Exposure to nut products for these children can trigger an anaphylactic reaction - **a severe, potentially fatal allergic reaction that requires immediate medical attention.**

In order to keep the children safe, our school strongly recommends that **nuts and nut products should not be brought to school** or included in lunches or snacks for all students. As students sit in the same room to eat their lunch this is particularly important. Your support in this area is very much appreciated.

The safety and wellbeing of all children in our care is our priority.

Thank you so much for your ongoing cooperation and vigilance in ensuring a safe environment for all our students.

Best regards,

Carmen Chan
