Re: Influenza Season in Hong Kong - Daily Temperature Check and Health Protection Measures for School

Dear KJS families,

Welcome back and hope you all have a nice Easter Break.

Hong Kong has entered the Influenza Season.

As advised by CHP, please check the body temperature of your child every day **before** sending them to school. If your child has any upper respiratory infection symptoms, fever, headache, diarrhoea or vomiting, they should **stay home and should be refrained from school until they are recovered**. Students who experience diarrhoea, vomiting or fevers should remain at home until 48 hours after their last episode.

This enables children who are unwell to fully rest and recover and also prevents the spread of illness throughout the school.

Hope everyone stays strong and healthy.

Best regards,
