

Date: 13 Mar 2024

Dear year 1 and 2 families,

As part of our ongoing efforts to enhance the play experiences for our youngest students we have recently purchased additional playground equipment.

Kitchen

Playhouse

We are seeking donations of used kitchen equipment and tools that can be repurposed and incorporated into our new playhouse and kitchen. Our aim is to transform these items into imaginative play opportunities where children can engage in role play, develop social skills, and explore their creativity.

Not only will this help in giving these items a second life, but it will also teach our students the importance of recycling and reusing materials.

If you have any used kitchen items that are no longer needed, we would greatly appreciate your donation. Please ensure that all items are cleaned and safe for children's use, with no sharp edges or broken parts. For now, we don't want anything that is made of glass.

We are specifically looking for the following items:

- Pots and pans (with handles preferred)
- Metal colanders and spatulas
- Whisks and ladles
- Muffin tins and cookie cutters
- Durable plastic bowls and plates
- Watering cans
- Plastic jars
- Waterproof aprons
- Anything else from your kitchen that can be used outdoors!

If you have any of these items please send them to school with your child. The classroom teacher will collect them.

Many thanks for your support with this!

Mrs. Doucette
